Supervisor Rights made a motion to open the Meeting. Councilwoman Hudak seconded. All in favor.

PUBLIC HEARINGS

PUBLIC HEARING – NOISE ORDINANCE

Supervisor Rights made a motion to open the Public Hearing for the Noise Ordinance. Councilman Yee seconded. All in favor.

There were no comments made on the Noise Ordinance Public Hearing. Supervisor Rights made a motion to close the Public Hearing. Councilman Yee seconded. All in favor.

PUBLIC HEARING – COMPREHENSIVE PLAN AMENDMENT

Supervisor Rights made a motion to open the Public Hearing. Councilman Gross seconded. All in favor.

Lynn Eckardt, Vice President of Concerned Residents of Southeast, read a letter into the record. (See attached at end of minutes).

Rick Fuerman, President of Concerned Residents of Southeast, stated that this would be setting a precedent to rezone for special preference. This is spot zoning because you are not changing the Master Plan, just a small section. It took 8-10 years working on the plan and we must work together to change it. He said that this is an egregious act, and no action should be taken. He stated he felt the Town Board already made up its mind.

Supervisor Rights answered that we have had Public Dialog in Public Hearings and other worksessions, and nothing was done behind close doors. He feels that the applicant is a significant tax source.

Ann Fanizzi, a member of the Open Space Committee, is opposed to the Town Board's effort to overturn the Comprehensive Plan.

Denis Castelli stated that part of the zoning is residential, a significant omission and that once a change was made, it can become a hotel, etc...

Laura Greene said that this proposal is for one applicant and will create a negative impact on the community, citing noise incidents starting early in the morning.

Renee Diaz stated that the County gets the sales tax for Brewster Honda.

Bill Heath asked if taxes would be different if this project is approved.

Town Attorney Stephens answered that as the value goes up, the taxes go up.

Keith Greene, representing the Allview Ave- Meadow Lane Coalition, questions whether this will serve the general area and that SEQRA must be reviewed. In the Zoning Code 138-4, this falls under Motor Vehicle Service Station and the variance would be hostile to the Comprehensive Plan. He feels that the residents concerns are not being heard. (See attached letter at end of minutes)

David Gordon is concerned the decision process is well on its way and asks the Town Board to take a step back and listen to the voices of the community. He stated that there is a lot more at stake than money. Master Plan & Zoning changes will effect the environmental and land use perspective.

Mr. Ito was dismayed by the quality of information given, and said that any decision made is only as good as the facts you receive. In the Comprehensive Plan amended in 2004, it states that automobile use in the NB I Zone should be discouraged. He asked the Board to look at every fact of this project.

Jane Cruz felt that should this go through, it would be detrimental to the value of their homes that have already been reduced in the last five years. Robert Woodstead was concerned with the safety of the neighborhood.

Richard O'Rourke, counsel for Brewster Honda introduced letters into the record. (See at end of minutes)

Christine Puccini thought that we should take a step back and review and update the plan if necessary, but not change it in its entirety for one applicant's needs. Virginia Ruskin said that once spot zoning happens, beware. Jack Duncan thought that the change would impact everyone.

Supervisor Rights made a motion to close the Public Hearing. Councilman Gross seconded. All in favor.

PUBLIC HEARING – VALLEJO DOG KENNEL

Supervisor Rights made a motion to open the Public Hearing. Councilman Yee seconded. All in favor.

Legal Notice was read, fees were paid and certified receipts were turned in. The Vallejo's are asking for a special permit for a kennel, but not to operate one, they are dog trainers and train dogs at their home. The dogs are kept inside and there is no barking.

John Lord was concerned that if the special permit was issued, it will stay with the property.

Town Council Willis Stephen said that it is according to how the permit is drafted.

Mr. Lusardi, council for the Vallejos, will agree that the permit is for his clients only, not to be continued after the property is sold. Lynn Eckardt feels this would be an enforcement nightmare and that it would reduce the property values of the neighborhood. Mr. Lusardi stated that his clients met the requirements for a Special Permit and in the Zoning Code 138-53. Wendy Weiner said that this will impact the value of their homes and she also noted that the applicants have advertised as a Kennel. Paul Norini said that this would have a serious impact on selling his house.

Don Cuomo stated that he counted 26 dogs on the property, not eight as they claimed. He said they have been running a business since day one, and the permits and licenses came after the fact. The name of the business is "Doggie Lami Canine Retreat". Don also talked to the Board of Health and he was told they should have a separate septic. John Balentine feels that the surrounding property owners will have a lower property value and objects to a commercial establishment.

Ed Marrow was also concerned with the house values. Cathy Croft asked what the maximum number of dogs a person can have was.

Supervisor Rights made a motion to close the Public Hearing. Councilman Gross seconded. All in favor.

REGULAR MEETING

Supervisor Rights made a motion to open the Regular Meeting. Councilman Yee seconded. All in favor.

CORRESPONDENCE

Supervisor Rights made a motion to waive the reading of the Correspondence. Councilman Yee seconded. All in favor.
