

Tonetta Lake Advisory Committee Meeting May 15, 2006

7:30 PM – 8:30 PM

Attendees:

Don Hazen - Chairman

Ralph Woodgate

Karl Lebitsch

Robert Lund

Mike Langley

Karen Ratajack

Bob Tiburcio

Paul Johnson – Town Board Representative

- **ISCO SAMPLES** – Northeast Laboratory of Danbury closed their local branch so TLAC was unable to drop off a sample taken on 5/12. Looking for a new laboratory.
- **Carp Update** – DEC issued the Carp Permit and Carp Fence Permit. Town of Southeast has until November 30, 2006 to deploy carp. Following up with three different fabricators; trying to get fabrication and installation. Neighbor will allow egress to dam site as long as they are made an additional insured by contractor/Town. Discussion on amount of carp to deploy ensued; majority of committee supported the full complement of fish as DEC approved 10 per vegetative acre versus 15 which is their limit. Will circulate Dr. Lubnows's thoughts on the matter.
- **Debris** – Is accumulating along the lake. Still an outstanding issue. Meeting on June 19th in the Field at 17 Lakeside Road. Will invite Highway Superintendent to brain storm solutions.
- **Septic Repair Program** – Lake Tonetta now considered a Phase 1. Ask Bill Ford for every home within 200' of Lake Tonetta. Plan a newsletter for the Fall.
